

# Latest Neff induction hobs

New intelligent hob design from Neff is now at Kent Blaxill awaiting installation in your kitchen.

This new generation of sleek induction hobs offers you greater cooking flexibility. Using an enlarged single

*...you heat only  
the base of  
the pan...*

zone you can heat a pan of any size once positioned within the area. The induction hob achieves maximum flexibility and consistent heat.

The induction coils work independently or together to provide you with the best possible results and better control of your cooking.

#### *Energy efficient*

This new generation of hobs is extremely energy efficient and offers savings on your electricity bills - you heat only the base of the pan - so no wasted heat and maximum efficiency.

#### *Easy to clean*

Cleaning couldn't be easier. The sleek smooth top means a quick wipe with a cloth and it's done.

**Buy a Neff Induction Hob  
before 29 April 2011 -

Berndes Induction  
Saucepan set  
absolutely FREE!**

And because spills won't get burnt onto the surface it's wonderfully easy to keep looking good.

Innovative features such as 'Point & Twist' and 'automatic pan recognition' provide further safety and efficiency. The smooth, uncluttered look of these clever hobs completely complement today's modern kitchen. If you want style and efficiency then this is the hob for you and your kitchen.

# Your kitchen by design...

When Mr and Mrs B from Tendring instructed Kent Blaxill to make-over their family kitchen, their brief included a rigid factory-made kitchen, at an affordable price.

Mr and Mrs B wanted a fresh, airy feel for this important family area and that included incorporating a storage-cum-decorative solution to make a feature of the alcove in the chimney breast, which had previously housed the boiler.

Kent Blaxill kitchen designer Sandy Dobson suggested including an integral eating area by retaining the

*...to make a feature  
of the alcove in  
the chimney breast...*

position of the hob across the kitchen corner, so eating/cooking areas could be as free and efficient as possible. And with Mr and Mrs B's comfort in mind, Sandy's individual solution for storage within the chimney breast was

met with a shallow base unit below the table top, open shelf/wine rack at wall unit height and by running the worktop into the alcove so that the kitchen feels particularly 'homely'. General storage needs were simpler and met, in the main, by the use of drawer line units and pan drawers beneath the hob - achieving a sleek and uncluttered overall feel.

With any major redecoration, there are always practical challenges and

Kent Blaxill's fitting expert Geoff Cleal was there to help. Geoff said "Sometimes it's impossible to foresee hidden issues such as electrical or plumbing but our experienced teams at Kent Blaxill were on hand to ensure that the end result of spectacular new recessed ceiling lighting was achieved in Mr and Mrs B's kitchen". He continued "We know how important it is to be able to trust fitters and that is all part of the service at Kent Blaxill - we always contact the client before making any changes so there are no surprises, either in terms of cost or changes to plans."

For ideas on how you can make your dream kitchen a reality, book an appointment today with Kent Blaxill kitchen designer Sandy Dobson on 01206 216022.

# every drop counts...

Kent Blaxill now stock the very latest in global bathrooms from Roca. With water reserves high on the eco-agenda, Kent Blaxill are proud to be showcasing this leading product in both design and sustainability. 'W+W' is a unique product which combines functionality, sustainability and aesthetic design.

*...makes it ideal  
for compact  
spaces...*

This solution combines the toilet and washbasin in one single piece and this eye-catching design makes it ideal for compact spaces. Its most innovative feature is undoubtedly the technology which allows water from the washbasin to be reused to fill the toilet cistern, a unique concept which Roca has now brought to reality. Another great reason to check out the fabulous new bathroom showroom at Kent Blaxill.

available across selected  
bathroom ranges before  
the end of April 2011

## What is a wet room?

A wet room is a bathroom where the shower area is level with the surrounding floor with no lip or step into the shower - which makes it easily accessible to all.

Building a wet room can be complex with many issues to consider. Kent Blaxill can help you every step of the way and make your dream bathing area a reality.

## WET ROOM ACTION PLAN

- **SITE CONDITIONS** – Kent Blaxill will research and plan the room size including joist location and direction.
- **BUDGET** – How much can you afford? Kent Blaxill can ensure you work within that budget including contingency.
- **INSTALLATION** – From design to fitting, Kent Blaxill can help with every aspect of this tricky install.
- **AESTHETICS** – Kent Blaxill will help you consider all the essentials from tiled to glass plus colour, electrics, lighting, taps and eco-features, Kent Blaxill has it all.

# Interiors update

The much loved 'feature' wall has resulted in Kent Blaxill offering a wider than ever range of striking designer wallpapers from names such as Cole & Son and Romo.

Digital prints are becoming ever more popular and give a whole new

*...striking  
designer  
wallpapers...*

dimension to the feature wall where the investment can really create a superb and stunning end result.

Interiors Co-ordinator Andrea Williams from Kent Blaxill believes that many home-owners have never hung wallpaper and see it as a bit of a challenge and can be put off. For this reason, wallpaper companies have introduced the new 'paste the wall' wallpapers, alleviating the need for unnecessary equipment such as wallpasting tables.

## *Vintage and Retro*

Interiors often follow fashion trends and we are seeing the

*...a return to  
textured  
papers...*

resurgence in the vintage and retro look. Sanderson launched 2 collections last season, one featuring archive material and the other 'Dandelion Clocks' that proved to be very popular.

*'Dandelion Clocks' from Sanderson*

Sanderson's new collection for this season showcases new artists taking inspiration from original 1950's designs.

Textured papers such as the 'grasscloth' look have made a

comeback after being very popular in the 70s. Small print papers are more widely sought after for those who have had the feature wall for a while and who are now progressing onto wallpaper on all walls.

For more advice on how to bring your walls to life, call in to see Interiors Co-ordinator Andrea or give her a call on 01206 216048.
