

CERTIFIRE certificated fire doors available from stock or manufactured to order within 3-5 days

Our trained staff are able to cut apertures into fire doors which meet all relevant CERTIFIRE standards. We can cut apertures in both John Carr or Premdor fire doors.

You can order your fire door with an aperture to your specification direct from the manufacturer but this can take up to 4-5 weeks.

We can offer you a speedier service, using popular fire doors from stock, with an aperture to your specification normally within 3-5 working days.

Apertures cut to your specification
