KBProtect • KentBlaxill

Kent Blaxill have over 175 years experience in providing a range of paint coatings to suit all requirements. Whether its factory maintenance, roof refurbishment, fire protection, steel fabrication, anti-bacterial and food safe requirements or anything else, Kent Blaxill have the solution.

We have a large decorating centre network as well as a dedicated specialist coatings manager who can provide technical advice, specifications and free site visits to provide the correct recommendation for your project. The solution can be tailored to specifically meet your requirements and budget.

Kent Blaxill can recommend approved contractors and product applicators, if required, to carry out any type of specialist painting work. There are painting systems available for certain applications, such as roofs and metal work, where a 10 or 15 year warranty can be achieved. Kent Blaxill can also recommend preparation company's for blast tracking of floors, grit blasting of walls and metal as well as other types of surface preparation.

Floor Coatings

A range of floor coatings in any colour, for any application. Single pack floor coatings for workshops and factory's, solutions for power floated concrete and high build epoxy coatings for industrial floors and vehicular traffic.

- Specialist primers for porous and power floated floors
- Single pack and anti-slip floor paint
- Tough and durable epoxy and polyurethane floor coatings
- Coatings for damp floors and cellars
- Low temperature, fast curing and hygienic floor coatings
- All colours and finishes available

Metal Coatings

Metal paints and primers to meet all needs. From single pack decorative metal paints for garage doors and railings to C5 marine environments as well as two pack metal paints for high impact and chemical resistance.

- Primers for all metal including galvanised and rust
- Single pack anti-corrosive decorative metal topcoats
- Two pack epoxy and polyurethane metal coatings
- High impact and chemical resistant metal paints
- Elastomeric and C5 marine environment metal paints

All Surface Coatings

For general maintenance and decoration on a wide range of different surfaces, we have a range of products, both solvent and water based, designed to adhere directly to many surfaces without the need for separate primers or products.

- Metal
- Plastic/UPVC & plastisol
- Timber
- Powder coatings
- Glass
- Previously painted surfaces
- Walls and ceilings
- Interior and exterior use, any colour or finish

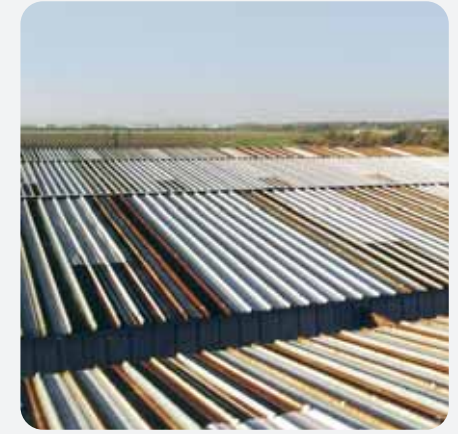

Cladding Coatings

For exterior cladding in any condition, we have systems for every type of cladding refurbishment including plastisol, PVDF, micro ribbed, powder coating, timber and more.

- Single pack water and solvent based cladding paint
- Durable two pack cladding coatings
- Primers for PVDF, galvanised and powder coating
- All colours and finishes available including metallic finishes
- 10 & 15 year warranty systems available

Roof Coatings

A full range of roof refurbishment and waterproofing coating systems for all types of roofs and gutters. Systems include metal corrosion, leaking roofs and removal of unsightly contamination such as mould, algae and moss.

- Metal roofs
- Asbestos roof refurbishment and encapsulation systems
- Cementitious roofs
- Flat roofs and balcony's
- Gutters
- Patch repair kits for leaking roofs
- 10 & 15 year warranty systems available

Hygiene & Mould Coatings

Anti-bacterial, anti-microbial, food contact safe and mould proof coatings. For use in areas such as hospitals, laboratories, veterinary surgery's, food preparation, high humidity environments and much more.

- Anti-bacterial wall and floor coatings
- Mould and mildew proof coatings
- R1 Certified food contact safe coatings
- Fully washable anti-microbial systems

Walls & Waterproofing

Coatings for various walls areas like lime mortar and plaster, distemper, render and brickwork. We have wall coatings for difficult substrates and coatings which can fully waterproof walls where damp ingress is a problem.

- Fully breathable masonry coatings
- Waterproofing masonry coatings
- Clear waterproofing and silicone based systems
- All weather coatings for all conditions and environments
- Fully scrubbable wall coatings
- All colours and finishes
- 10 year warranty systems available

Commercial & Industrial Ceilings

A range of coatings designed for large commercial and industrial ceilings in any condition. This includes stain block primer finish coatings available in various colours and finishes which will adhered to all types of roof substrate.

- Suspended ceilings and ceiling tiles
- New build commercial and industrial ceiling areas
- Old ceilings with water damage or other contamination
- Fire damaged and complete refurbishment projects
- Difficult surfaces such as distemper, plastic, galvanised
- All colours and finishes available

Anti-Graffiti Coatings

A range of anti-graffiti coatings to combat graffiti problems in any area. This may be interior corridors, exterior masonry walls, street furniture or subways and underpasses. We have a range of solutions and coating options to combat any such problem.

- Interior and Exterior solutions
- Single pack and twin pack anti graffiti options
- Clear or coloured systems
- Solvent based and water-based options
- Sacrificial or long life coatings

Fire Protection Coatings

Fire protective coatings for all areas of building regulation, coverings every eventuality and requirement. Kent Blaxill also offer full technical support on any fire protection requirement from structural steel to walls, timber and even fabrics.

- Intumescent paint for structural steel
- Class 1 & Class 0 spread of flame
- 30 & 60 minute for timber and plasterboard
- Fire door upgrading to FD30 or FD60
- Flame retardant products for upholstery & fabrics
- Fire certification service
