protective coatings

For protection in harsh environments, coating difficult substrates or to lengthen a maintenance life-cycle, Kent Blaxill can supply the right product to solve the problem. Working in partnership with a number of manufacturers' we can visit sites and assist you in putting together the right specification for the job.

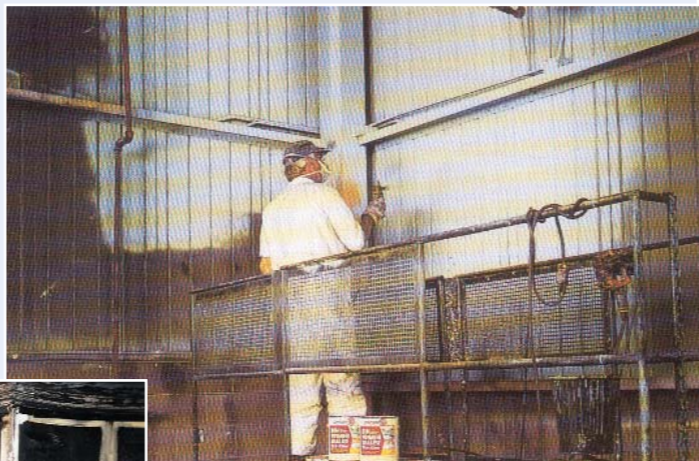

You can get a range of products mixed in-store whilst you wait. We have a Rustoleum colour mixing machine at Colchester and a Teamac colour mixing machine at Sudbury. For more specialist products we will order in and deliver to you anywhere across East Anglia.

If you would like to know more, contact your local branch or call our Protective Coatings Hotline Local Call Rate 0845 4680 888 and speak to one of our protective coatings specialists.

Fire Protection

Kent Blaxill offers a wide range of fire retardant coatings from major manufacturers which include Albi, Bollom, Crown Timonox, Envirograph, Quelfire, and Zeroflame to name a few. We can supply coatings for steel, timber, plaster and other substrates. With our extensive knowledge we can offer you the right product with the least amount of coats, enabling you to achieve the correct rating for the substrate, which can be class 0/1, or 1/2 hour to 1 1/2 hours. Contact the protective coatings hotline for specification or literature on any of our products.
